[1]On Time Performance is calculated as the percentage of trips that departed no more than 1 minute before and arrive no more than 5 minutes past their scheduled times at each landing. This report does not include delays due to events outside of the control of NYC Ferry, such as vessel traffic, river closures/obstructions, extreme weather conditions, and other U.S. Coast Guard restrictions. When tracking devices are offline, the stops are excluded from the calculation. [2]Number of NYCF-branded vessels available for use.
